“ I miss you so much, Brea! Don't ever forget how much you mean to me. I think of you often.. and today, I found the song that magically came to me on YouTube (from the video game you used to play): Bach - Air on G string. I know you would laugh at the title because you have a radically amazing sense of humor. I knew it was you reaching out to me today. I balled for 5 minutes straight. I can't remotely express how much I miss you. This beautiful rose candle is for you. Pink, as it suits your love for the color pink and the nickname I gave you, Pinky Pie. I hope you can smell it. I'm sure it's as what it states: rose.💕💕 I plan on making those YouTube videos of the cool thing you discovered and showed me years ago. Don't worry, it's our secret until I can release it. I promise I will give you full credit for it. You're quite the remarkable person with an immensely creative imagination and I want to show that to the world. I love you and wish you only peace and happiness.
