“ *JoAnn lived next door to me from 7th grade thru high school. We were very close friends and I would go places with her and her family. She drove us to H.S. In the yellow station wagoners that was passed down to her brothers. We lost touch once she left for college. I was able to find her in 2006 and talk with her. I did not get to see her and just this holiday was searching for her.*

I am saddened to learn of her passing. she was so smart in school and kind and had the best family!

Love to JoAnn and her family ❤️
