“ *My mom dated Kurt...also I worked for him at granite furniture...and Co workers and other I met on the streets had many great stories.he did not judge and respected his workers.....he saved job after job for those in the time of need...when anyone talked about him it was always on another level....too bad the owners at granite had the same understanding as he did for there workers.....there doors would still be open.but they only judged and used there workers....Kurt Taylor much love respect and thanks for being my step-dad boss and freind...xoxo ryan paul bridgejamming in the skies about*
