It is with deep sadness, we announce the passing of Laura Ann Rogers, whose positive spirit and outgoing personality touched countless lives. Laura passed peacefully in her sleep on March 12th 2026 after a courageous decades long battle with health issues related to Diabetes.

Laura's passion was writing and she was particularly proud of her many published articles in newsletters and medical publications related to wellness and overcoming the challenges of living with Diabetes. Laura also enjoyed the outdoors and hiking in the mountains of Utah. Laura loved animals and was a wonderful pet parent to numerous dogs throughout her life.

But Laura was most happy when she was surrounded by family and friends. “ I first met Laura at a writers' conference over 15 years ago. I told her that my son was type 1, and we had that connection. Through the years, we stayed in touch, sharing type 1 information. We worked together and wrote together.
I'll never forget once, my son's insulin pump wasn't working, my husband was out of town, and it was late at night. I called Laura, very upset, asking for help, and she dropped everything and came over to my house to help me through a very trying time.
Praying she's surrounded by peace and love now.
I'm glad to have known her, and my heart goes out to those she left behind.
